

# Why it still has to be ‘Before ‘n’ After Rustproofing in Rugby

**Stuart Davies of Waterford in Ireland** says: ‘I brought my recently purchased 110 to be Before ‘n’ After’d in because having just sold my ‘96 90 I know it absolutely has to be Before ‘n’ After. My 90 was done six years ago. The buyer was a serious enthusiast who looked very closely underneath and found no problems at all. I was delighted with the price I got. I more than got the money back I spent on the Before ‘n’ After job.’

**Howard Connach of Mold in Flintshire** says ‘I had my 90 done in Oct 2008. I advertised it on ebay and the reserve was quickly met and surpassed – in less than 24 hours in fact! I put this down to the fact that there are people actively looking for Before ‘n’ Aftered vehicles to buy. I’ve just brought my newly purchased 110 in for treatment which is testament to my faith in the Before ‘n’ After job.’ See video testimonials of other customers who go top price on [www.before-n-after.co.uk/mcwaxoyl](http://www.before-n-after.co.uk/mcwaxoyl).

Before I owned my current Land Rover I had two others that rotted out from under me. Now I have had this one Before ‘n’ After’d I know that this problem is a thing of the past. That fact and the excellent service from Chris means that any other vehicle I own will make a trip down to get treated. Many thanks!

We were well received and the rustproofing was carried out exactly as detailed. The vehicle was ready on time as promised. The information pack was of great assistance and enabled us to fill our day in the area.

Chris is a very professional man who knows his job very well. My Audi TS4 oozed waxoyl for days which is proof as to the level of waxoyl injected into the vehicle. Very, very pleased. A bonus is being able to have the use of a loan car for the day. I would definitely use Chris again. Value for money 10/10. Regards Richard Ebejer

Excellent Service – Good coverage & plenty of it! Having to sell vehicle & have negotiated excellent price as a result of sound proofing & Before ‘n’ After rustproofing. Excellent info pack with plenty to do while awaiting service. Sat in the cockpit of an Avro Vulcan!

High quality rustproofing. Positive feedback received from my local Land Rover specialist who services my car. Makes the car look & feel younger. Pays for itself knowing the car won’t need welding at next MOT. Loan car is quirky but does the job. Recommend to anyone who wants to keep their car & has concerns over potential MOT failure due to rust.

I was very happy with the work that was done. Good value and friendly service. If I changed the vehicle in the future for another one, I would have it done on that one.

**Carl Chameberlain Wigan Defender 90 25.6.11**  
Hi Chris:- Very pleased with my LR 90 rustproofing. MOT inspector commented on what a good job had been done. Would recommend to anybody. Will have it done again when my 5 years is up. Had a good day out in Warwick. All in all, a very good job.

**Bill Dallinore Prestatyn 110 29.9.11**  
As usual Chris your work was exceptional, especially the attention you show in getting in all the awkward places on the L/R. Value for money? You have it priced just right. Thoroughly enjoyed the day out especially the Heritage Motor Centre – being a petrol head! Your auto car took some getting used to, as only driven a stock shift with an auto some 15 years ago.

Hi Chris, I found your service to be a highly professional, friendly operation which delivered exactly what you promised. Believe me this is a refreshing change these days in my experience. Looking at the job you have done, my mechanic was extremely impressed as was I. As far as I can see you’ve done exactly what you said on the tin and it would be my pleasure to use/recommend you again in the future.

**Janet Calladine, Morebath, Devon 14.1.12**  
An excellent service – friendly, helpful and great details about where to go in Warwickshire. Many Thanks.

**Mike Lynch Macclesfield Puma 17.11.11**  
Dear Chris, I am absolutely delighted with the full waxoyling of my new Defender. I have been underneath to do some other work and the attention to detail is fantastic. Regarding the arrangements for the day – your information pack is very comprehensive. As I said, we have a canal boat in the area and I didn’t know a tenth of what was around. Thank you for such a thorough service.

**Nigel Emery Coventry Motor Caravan 30.1.12**  
Very efficient. ‘Spot on’. It does ‘What it says on the tin’. A very personal service. Very grateful for the courtesy car – it made it so easy.

**Chris Christou Harborough 5.12.11 XJR**  
Good service, thorough & well organized. After my Jaguar the Alfa will be coming in the summer.

**Peter Magee East Sussex 6.12.11 XKR**  
It is the third car I have brought to you for your high quality rust proofing service. I came to you twice, more than ten years ago, when you had your business in Newbury, Berkshire, and once again at your business at Rugby on December 6th last year. This surely speaks volumes in regard to the quality of your work and your attention to detail from a very satisfied customer who had to travel over 200 miles from East Sussex.

**Mark Gray Chester Defender 90 11.2.12**  
Very Professional Job. Looks brilliant. It added, and always will, money to my Land Rover. Our day out was great. Loved the Air Museum and the funky little Honda. Many thanks Chris for a great job.

**Colin Heslop, South Staffs, Disco TD5, 27.3.12**  
Service excellent and helpful – work done as expected & on time. My TD5 Discovery should last as expected. Many Thanks.

**John Stupart, Dunfermline, 90, 15.10.11**  
Thought it was an excellent service, very friendly, good knowledge and advice.

**Matthew Judson, Witney 130 27.10.11**  
Well organized and communication before hand was excellent. Info pack for things to do was excellent. Finish of chassis was excellent, cleaning after the application was carried out very well. I will/have recommend/ed your service to others.

**Mike Stapleton, Cambridge 110 20.7.11**  
I had a 110 rustproofed by you in 2003 when it was 2 years old. After 8 years the chassis was still 100% rust free so it was only natural that when I got a new 110, I should again have you treat it. Your new premises were easy to find and we combined our visit with a few days in the Peak District. Your quirky loan car was a bit of fun and when we got back from our day out the chassis of the new 110 was thoroughly treated. See you in 10 years.

**Richard Lockwood, Discovery 3, North Lincs 2.11.11**  
The information pack before the visit was excellent - a brilliant idea to send the “things to see and do” in the area. The “on site” service could not be faulted and the courtesy car provided was appreciated - a necessary item for the area. A very satisfactory service all round.
