

"Terms & Conditions for the use of "courtesy car"

If you wish to borrow the courtesy car please fill this out and send it together with the "terms & conditions"

A Peugeot 206 supermini estate – reg: KV05 JYN, will be loaned to customers while their car is being rustproofed. The car is **not** insured by myself for customers to drive. If you have comprehensive insurance cover on your own vehicle that usually covers you to drive other vehicles third party. I'm happy for you to drive the courtesy car under these conditions but you will of course have to pay for any damage you cause to my car.

If you don't want to take the risk, you can get on day comprehensive cover for £20 click here. <https://quote.dayinsure.com/onecall/car/yourquote>

If you want to bring a large dog with you, as long as it has a cage it can go in my own car, my Honda SMX which has enough space in the back for a large dog. Email me so that I can get the car ready for you. You will not be able to get day insurance on this as it's a Japanese import. Your own comprehensive policy will usually cover you to drive it third party but you will of course have to pay for any damage that you cause to it.
